

Marcelo Flauze  
1º ano

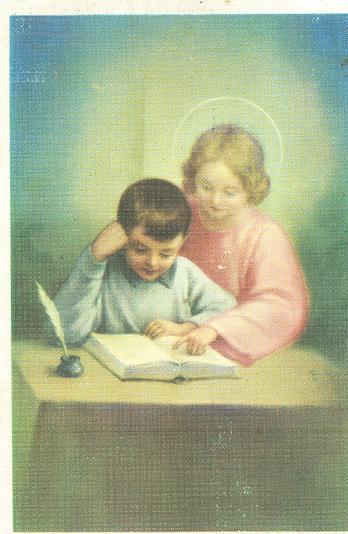

Pertence a família Ardeidae, cujas espécies convivem em perfeita harmonia com o pântano de todos os tipos de regiões tropicais e temperadas do globo. Possui grande desenvolvimento do sentido visual, complementado por um bico forte e cônico, que lhe permite pegar peixes, pequenos vertebrados, anfíbios e insetos que habitam nas regiões pantaneiras e pantanosas.

O falciforme bico, proporcionalmente desenvolvido entre as espécies, permite a essas aves rápidos movimentos e grande agilidade. Voam suavemente, usando as patas para equilibrar-se no espaço. O ornamento em bando de muitos indivíduos pode estabelecer sua colônia.

Costuma perto da água, em árvores de tamanhos altas e frondosas, abrigadas de seus predadores. Isto é o período de reprodução.

As fêmeas são consideradas sagradas por muitas culturas primitivas. A espécie ameaçada de extinção o socó (Tigre-fasciatus).

$$\boxed{\square \star \diamond} \cup \boxed{o} = \boxed{\square \star o}$$

$$\text{Set A} \cup \text{Set B} = \text{Set C}$$

A Venn diagram illustrating the union of two sets. It consists of three overlapping circles labeled A, B, and C. Circle A contains a blue flower icon. Circle B contains a blue triangle icon. Circle C contains a blue bunch of grapes icon. The intersection of circles A and B is shaded yellow. The intersection of all three circles (A, B, and C) is shaded orange.

A diagram illustrating a biological process. On the left, there is a red-outlined oval containing a blue drawing of a single leaf. In the center, there is a red-outlined oval containing a blue drawing of a small tree with a dense canopy. To the right of these two ovals is a minus sign (=). To the right of the minus sign is another red-outlined oval containing a blue drawing of a flower with multiple petals and a central stamen.
